“ I am so saddened to hear this. Jerrie was a beautiful lady, inside and out.. She was kind , compassionate and caring. I remember when she met Nolan in high school. Both of them were such handsome and popular young people ! I'm so happy that they had such a long life together. I always enjoyed seeing them when they came back home, especially for TMF !  
My heart goes out to Nolan, her children and grandchildren..  
With my deepest sympathy.

“ I met Jerrie in 1985 at Dr. Binder's Dental office in Lilburn. We worked together and shared a birthday until June 2003 when my family and i moved to Wisconsin then to Savannah. I was able to visit with Jerrie when I would return for office Christmas parties or when we I was in town and would go to visit at the office. I have so many wonderful memories of our years together. She was the office mom to all of us. She could be counted on for good advice and anything that you could possibly need she had in her purse. I would tell her if i ever got on the TV show Let's make a deal I was taking her with me because she had EVERYTHING in that bag. She was kind to patients and they would sometimes share their troubles with her. She always had some of her encouraging wisdom and they would leave feeling better about what ever was bothering them. I have so many memories that I could never write them in this small tribute. My prayers are with you all as you begin your time without her.
