“ I'm sorry to hear about Bob's passing. I appreciated his leadership of NCR's Human Interface Technology Center as I was starting my career. Rest In Peace Bob.

Molham - January 04 at 02:13 PM

“ Bob was a major contributor to my career development at NCR, a friend, a scholar, and a gentleman. He will be missed.

“ Dear Laura, Karen, Bobby and Grandchildren,
We are so sorry at the loss of Bob. He is someone that I worked with for many years, first at NCR's Human Interface Technology Center and then at Georgia Tech Research Institute. He always encouraged us to think outside the box and to consider the bigger picture. We learned a lot from Bob, and he made our research solutions better.

Bob was a talented researcher and a wonderful storyteller. He was always fun to work with. He will be missed.

Love to you all!

“ I'm saddened to learn of Bob's passing. He was a wonderful person who I met through the AI research community, and with whom I collaborated on multiple funding proposals. Bob was highly influential in our joint subfield of Case-Based Reasoning; he served as a DARPA Program Manager for an early effort on this topic, which greatly expanded its recognition and impact worldwide. I'll miss his good cheer and encouraging words, and express my deepest condolences to his family.

“ I am very sad to hear about Bob Simpson passing away. I first met Bob at a DARPA workshop in 1989 when I was still a PhD student at the Ohio State University. In the summer of 1992, Bob and I worked together on the AskJef project; by then he had joined NCR and I had joined Georgia Tech. Later, when he joined GTRI, we became colleagues at Georgia Tech. We often talked about our experience with AskJef and looked for new opportunities to work together. Bob was a good colleague. It was wonderful to work with him and I mourn his passing.

“ I am very sad to hear about Bob's passing. I knew him from working with him when he worked for GTRI. He was so nice as I would sit and chat with him and Betty. He will be missed by his GTRI family. I offer my prayers and condolences to his family during this time. May he rest in peace with our Lord and Savior.

“ Bob was a wonderful combination of intellectual rigor and heart-felt caring. It was a pleasure to work with him at the NCR HITC and I have missed his critique and wry wit for many years since our careers took us in different directions. So sorry for your loss; he was taken way too soon.
