

Roger Cates

Roger Cates of Buford, GA passed away peacefully at his home on May 9, 2020. He was born in Altus, Oklahoma to Richard and Diane Cates. A business owner and entrepreneur, Roger had a passion for life, people and exotic cars. He was an avid music lover, accomplished chef, race car driver, beloved son, father, brother and uncle. “ Roger was like a brother to both of us . (A friend for 20 years.) He was an extraordinary man. We shared skills and created great music and memories. He was magnetic and drew people to him. He was a man who loved Love. He was imperfect in a beautiful way. Daryl and Annamarie Harris. Will miss you brother. Peace

“ Roger will be surely missed! He and my brother Anthony (Ace) was like 2 peas in a pods! He was a part of our family. We had so many good laughs and conversations. My one regret is that we didn't get to see him before my husband died in March and now he's gone. My heart is so broken right now. I find knowing they knew the Lord and they will all be together again. Ace, Roger and Will rest peacefully until we all meet up in the sky for the 1st resurrection! Love y'all!

“ I wish I had a picture of Roger and I to post. I spent lots of time with Roger in the 1990s. He was always kind. Whoever wrote this obituary is spot-on. He was always so funny and could really tell a story. Roger had a truly Magnetic personality and was a rain-maker. He really did care about people and definitely supported friends and acquaintances when they needed it most regardless of what it cost him. If you Google him you will see that he provided a luncheon for a rescue team when someone sunk their boat. He did a lot of amazing things that were hard to do! Driving race cars for hours and the like. He and I got back in touch recently and now of course it is a great regret that I did not fly down to visit with him a few months back when he was asking. He and I had a lot in common even though we lived very different lives - we knew that at the time and we knew that now. I met him when I was getting my PhD in psychology and then I married and had five children. I own and run a dairy now. We stayed friends. Roger was so stinking smart! That was my favorite thing about Roger: just listening to him and sharing ideas and relaxing. He lived with a lot of intensity and I am really missing him. Can't believe he's gone for good. Just spoke to him the other day and I told him I would fly down if he got on a list for lung surgery. I wish he were a better patient.

“ Thank you Abby for your kind words. I know how much you meant to Roger. He loved you dearly. He spoke of you often over the last several months and reminisced the times you two had shared. He never forgot you...he never stopped loving you.
