“ Aaron and I went to boot camp and A school together. When his ship would come to Newport and later in Norfolk he would look me up and we'd have a good visit. We lost contact after we were discharged in 1975. He tracked me down in the pre Facebook days and we kept in contact via Facebook. I dropped out of FB in early 2025. I was thinking about him recently and sent a message through Messenger but never heard back so I did a web search. My heart sunk when I read about his passing. I wish all the best to his wife and the other family members. Jack Border, USN friend, Anchorage Alaska

“ Arron was a great friend , we served in the US NAVY together aboard the USS DYESS DD880 we were both HT'S in R Division, he found a hole in the skin of the ship in the reefer decks while on sound and security watch in 1973 while we were under way , we had go to into the dry docks to have it fixed. I remember when he came on the ship. we were in Naples Italy. We always called him BATMAN he was flying around all the time. We've visited each other thou the years, he was a great friend and I'll miss him . I'm so Sorry Sherry for your lost RIP in shipmate
