

Dr. Addie Laura Campbell

June 12, 1945 - September 1, 2024

Dr. Addie Laura Campbell, known by all as Laura, and affectionately as Dr. Laura, 79, a native of Clearwater, Florida, and longtime resident of Atlanta, Georgia, sadly left our world on September 1, 2024, after a life richly lived in service, generosity, and kindness. Laura dedicated a lifetime of service to helping children, adolescents and families cope with life issues and psychological problems. She touched many lives with her positive, enthusiastic outlook, compassion, and empathy. Laura earned a bachelor's degree in nursing from the University of Florida, a Master's Clinical Nurse Specialist degree from Emory University School of Nursing, and a Ph.D. degree in Nursing from Georgia State University, where she was also an instructor and supervisor.

Her career began at Georgia Mental Health Institute in the Child and Adolescent Units. She provided treatment and consultation at Hillside, a residential treatment program for youth. She later codirected the Psychiatry Consultation Liaison Service at Grady Hospital, assisting children and adolescents dealing with psychological issues, and with youth admitted to the Grady Burn Center. She was Director of Nursing at Peachtree Parkwood Psychiatric Hospital and provided psychological consultation at Children's Hospital of Atlanta. She went on to establish a private practice, Psychotherapy Associates of Lenox Point, with psychiatrist, Charles Tauber, providing outpatient services for children and adolescents. She was particularly passionate about her role as the lead psychiatric nurse at Camp Breathe

Easy, a special needs summer camp for children with asthma.

Laura was predeceased by her parents, Bill and Mary Glen Campbell and her sister, Madeline, of Clearwater, Florida. She is survived by many Campbell cousins, who remember her for her fun-loving spirit and generous heart, and for the many family events she planned and hosted. Laura also had a special place in her heart for a family that she claimed as her own, and who lovingly called her Lollie, Robin Standridge Mozzo and her daughters, Autumn, Britney, and Carson, and Robin's brothers, Brian Standridge and Eric Standridge.

Celebrations of Life will be held in Atlanta and Clearwater with friends and family. Donations in Laura's memory can be made to: The University of Florida School of Nursing, Camp Twin Lakes, Inc., or Georgia Nurses Foundation, Inc.

“ I had an office in Laura’s building at Lenox Pointe for over 12 years. One of the most gentle souls I have known. We both took our dogs to the office. We lost touch for many years after she sold her office. She will always remain a very strong spirit in my life. ❤️

Lee Kyser, Ph.D. - September 26, 2024 at 04:06 PM

“ Laura and I had many happy times together as we were both single and could have our weekend getaways at her lake house or the condo in Hilton Head. I think that the best of times was our trip to Scotland to visit the Campbell castle. She noted at the time that we looked nothing like the gathering of portraits on the walls. We consumed a great deal of wine along with the various cheeses that she would collect during our daily travels. I will miss her forever.
