“ *On behalf of the City of Gainesville Construction Group, I offer our condolences to Charley's family. He was instrumental in the successful completion of several projects over a number of years. One of my inspectors said this about Charley several years back, "If Charley's building that pump station, I don't even need to inspect it." He did things the right way, because it was important to him.*

*For me, Charley was a great personality on the job. He balanced completing high quality projects with keeping a little fun on the job site. I always enjoyed a conversation with Charley. They were always filled with jokes, ribbing, and laughter. I will miss seeing him on our job sites.*

*Our prayers of comfort are with each of his family members.*
