“ *I had the privilege of working with Pete at Dekalb General Hospital back in the early days and also knew him to be an excellent physician and a good friend. I reconnected with him and Grace in Hiawassee after we all retired. I am saddened by his death but confident he is in peaceful place.*

“ *Wonderful doctor and proud father. Frequently shared stories of his girls when you were having a physical exam. I was privileged to have him as my doctor and attend high school with Susan. May he Rest In Peace.*

Just a great doctor and human being. He treated me, my mother and my mother-in-law.

He visited my mother when she was a patient in DeKalb General Hospital early in the morning then put in a full days work at his office. While I was under his care for migraine headaches, he would call me at home after his regular office hours. I could say more, but I think you readers will get the picture of a great doctor and human being.
