“ *Günter was a very strong hard working man who worked hard all his life. As a young teenager 17 years old he was drafted into the Luftwaffe and served his country then started a new chapter in his life moving to Canada where he started his family and worked very hard as an industrial chimney builder and later build a business with his long time friend Harry. We had many great times together drinking Apfel Wine und Zwiebel Küchen together. I have great respect and lots of great memories and stories to remember and he is missed by myself and his 2 grandchildren Kurt und Sabrina. God Bless*
