“ Cheryl I can't begin to know what to say other than you will be in my prayers and that God will comfort you in ways that only he can. Hugs my friend.

“ I am still in shock and have been thinking of you often since I heard the news. I met you in high-school the year you were graduating. I remember the Saab then the trail blazer... walking to your dad's house and hanging in the basement. I remember going to Kroger and wearing your Crocs (when they first came out) I looked like a clown. So many late nights and good times. You were always such a kind friend and had such a quirky personality. Never a dull moment! Every time I hear quagmire on family guy I think of you... but since your passing it stings. I remember visiting you at Steak and Shake when you worked the late shift... many many more memories... some PG 13 and some are fleeting. Would love to go back to those days just to be a fly on the wall. Fly high JT. You were such a big part of my teen years and I will never forget you!!!! □□□□□
