“ One of my favorite memories with Jayne was when I introduced her to my version of "going for a drive." We spent a whole day winding through the mountains and towns between Georgia, Alabama and Tennessee, stopping at waterfalls, scenic views and goofy shops along the way. She was like a mother to me during a time when I most needed the guiding hand, compassion, and understanding that comes with the role. She was there for me when my own mother wasn't.

For a while, we would go get our nails done and eat Mexican food (once monthly, almost always on a Monday). The ladies at the nail salon got a kick out of it because I always brought my son, Zachary with me and he would push the buttons on Jayne's massage chair. He just loved Jayne - he still thinks the world of her. Every time we go to the store, he asks after her.

I am so, SO very grateful for the time I got to spend with your mother over the past 8 years I have known her. She adored her family - especially her grandkids - and loved to talk about all of you. I am such a fortunate woman to have spent the time with her that I did. I hope she knew just how much I loved her, and will miss her!
