My family got to know over the years and to us you are a dad and a grandfather to our family. We will love and miss you forever. I will miss hearing you talk with Harvey about your trucker driver stories that you both would tell each other.

“ *Dearest Dad, although I didn't get the opportunity to have you back in my life for a very long time on the day of your passing I wanted to scream to the heavens "why did you have to take him so soon" but instead I looked to God and simple asked him to make sure you knew, no matter how near or far, I loved you to the moon.When we reunited we tried to learn,understand and catch up by talking for hours at a time and although there is so much more I wanted to learn and know those beautiful conversations will forever remain in the back of my mind. I have never been one to question God's will but if I know you, your up there in heaven unable to sit still. Although you're not here in the flesh I know you will always be right by our side in spirit. R.I.P my dear father and know that you were loved more than words can describe....Until we meet again!*
