“ I knew Nahuel starting in middle school, and he has been one of my longest friends. He was hilarious, and could make friends with anyone. He had a giving heart, gave so much to his friends and family. Gave his time, attention, like someone else said- the shirt off his back. He is so missed, I will always remember my kind and funny friend. I pray for God's grace and peace to touch his family and friends during this difficult time.

“ Nahuel was a kind person with a big heart. I met him through my husband who went to high school with him and later became roommates and worked together. He was the type of person who put others first and never wanted to burden anyone with anything. He would set himself on fire to keep others warm. That was the type of person he was. He was funny, gentle, lots of fun, and a little bit shy until he got to know you. His loss is felt by many and I wish he could see the outpouring of love from all the people's lives he touched. I hope he finds peace; he is very much missed.

“ *Nahuel was one of my brother’s friends in high school before he became a friend of mine as well. We rode the same bus, and most days he sat with me and our other friend, James. During some of the more difficult times in my life, Nahuel was one of the few people who consistently showed me kindness. Riding the bus became something I looked forward to because I knew I’d be met with a smiling face and good conversation. I will always remember him as someone who was kind, funny, and had a huge heart.* ”
