“ Hello Dawn and Robin: My memories of your dad was that he was "always nice." I honestly don't have any memories of him but kindness. He was an honorable man who took care of his family and loved them well! Both our families were like extended families to each other and I know that your parents would have been there for me in any situation and that my parents would have been there for you guys! It truly was a blessing to grow up with you all! Much love and sympathy for your loss! Sandy Bates
