“ Stanley, you are missed so much! you were my best friend and you were always there for me, no matter what the situation was or what you were going through... you were always there and showed me love and kindness and for that, i am forever thankful! i miss our talks and the times we had rock hunting at the creek or fishing at the lake. those memories will forever bless my heart until i am able to see you again. your words and encouragement meant so much to me and i can only pray i was a good friend to you as you were to me! i will see you again someday whenever God calls me home but until then i will keep all that you taught me in my heart and i will let Gods light shine through any darkness i may encounter or face. i love you dearly, Stanley!

“ You know those friends that are closer to you than your blood family? That's him to me. He is always there for me no matter what or when and we would do anything for each other. I will never be able to put into words exactly what this man means to me! I love him very deeply and will miss him tremendously! When I told him I was gonna miss him when he was gone, his response to me was, "I'm not gonna leave you. I'll always be looking over you but in a different kind of way."
