“ I was so sorry to hear of Ted's passing.

*I worked with Ted for a long time, and learned so much from him. He made building an extremely large, complicated, and mission critical radiology system seem like nothing more than a fun puzzle. He was very successful at what he did.*

*More than anything, Ted loved his family and friends, and while I recognize this term is often overused, Ted would have give the shirt off of his back to anyone that needed it.*

*Working with Ted, I learned to enjoy work, enjoy people, and to not be afraid to laugh at myself. I will never forget these, or any of the other lessons I learned from Ted.*

*The picture I am sharing came from a retirement party that people from St. Luke's and General Electric gave to Ted. It was a fun day, albeit bittersweet.*

*RIP Cupcake!*

*Mark Perna*
